

Savita.

precision purity performance

ABOUT US

"Precision Purity Performance" refer to a concept where a product not only delivers accurate results (Precision) but also does so with minimal contamination or impurities (Purity), while still achieving a high level of functionality or effectiveness (Performance); essentially, it signifies a high quality standard where accuracy, cleanliness, and desired outcome are all optimized together.

SAVITA FINE CHEMICALS remain a leader for manufacturing of high purity inorganic chemicals. Our diverse chemical products portfolio includes Laboratory Chemicals, Electroplating Chemicals, Pharmaceutical Chemicals, Agrochemicals and many more. In strict accordance with requirements of ISO9001 and ISO14001, the Company has exercised supervision, control and operation over every link of production, with a view to realizing the perfect combination of social responsibility, employee health, environmental protection and product quality.

Over the years, thanks to our thoughtful services to customers, high-quality products, competitive price and professional talent team, **SAVITA FINE CHEMICALS** has realized rapid development, growing from an original small factory. Faced with more opportunities and challenges in the future, **SAVITA FINE CHEMICALS** will make unremitting efforts with a more innovative and pragmatic attitude. We are looking forward to working together with the people of all circles at home and abroad to seek common development!

Industries We Serve

- Jewellery
- Sanitary
- Agro Chemicals
- Automotive Industries
- Laboratory Chemicals
- Electronics and PCB
- Electroplating Chemicals
- Pharmaceutical Chemicals
- Aluminium Anodising Industry

Types Of Products

Chemical Products

Copper Salts

- Copper Sulphate Pentahydrate : Available in LR, AR, GR, ACS, EP, Pharma, and Food grades.
- Copper Carbonate : Offered in LR, AR, and Pharma grades.

Stannous Salts

- Stannous Sulphate : Available in LR and AR grades.
- Stannous Chloride : Offered in LR and AR grades.

Nickel Salts

- Nickel Sulphate : Available in LR, AR, and EP grades.
- Nickel Carbonate : Offered in LR, AR, and EP grades.

Cobalt Salts

- Cobalt Sulphate : Available in LR, AR, and EP grades.
- Cobalt Carbonate : Offered in LR and AR grades.

Electroplating Chemicals

- Bright Chrome : EP grade.
- Hard Chrome Salt : EP grade.
- Nickel Salt : EP grade.
- Copper Salt : EP grade.

Aluminum Anodizing Chemicals

- Electro-colour Solution
- Stabilizer
- Cold Sealing
- Caustic Bath Additives
- Anodizing Bath Additives
